

**Sanner's Lake Sportsmen's Club
High Power Vintage Military Rifle Match
21 November 2020
Match Report**

It was a beautiful Fall day, perfect for our final high power event for the year. Eight shooters showed up for the festivities.

Mark came away with the honors as Match Winner with his older but still deadly National Match M1A setting a new range record in the Modified Rifle prone slow fire stage with a 100-6x score. The As Issued Rifle high score was shot by Jake with an old reliable bolt gun. A good variety of rifles were used, the eight shooters used seven different rifles.

This was the last high power rifle event for the year. Our next match will be the annual "Frozen Chosin" match in January. You have plenty of time to get your rifles zeroed in for that match and to get your body acclimated to the cold weather we hope to have by then for the match.

My thanks to the shooters who supported our program this year and I hope next year brings us better health conditions and we can have a better year for shooting and just life in general than 2020 was.

Dick Chadwick, Match Director

Official Results Bulletin

Name	Rifle/Cal.	Prone Slow	Prone Rapid	Standing	Aggregate	Place/Category
